**Movies that Matter** Richard Leonard 2010-06 A lively, discerning guide to what's good, beautiful, and true at the movies "Richard Leonard, SJ, expertly guides readers through some of the most popular recent films and shows us how even the most unlikely movies can encourage us to pray and draw closer to the divine . . . fascinating, lively, and often witty." --James Martin, SJ, author of "My Life with the Saints " This thought-provoking and inspiring work by popular film critic and Jesuit Richard Leonard explains how movies are today's parables and why people of faith need the skills to converse about them intelligently and productively. In "Movies""That Matter," Leonard views fifty important movies through "a lens of faith" and offers surprising insights on the spiritual dimension of each film. From Finding Nemo to Gandhi to The Godfather, Leonard's informed, Christian point of view guides us to a new appreciation of both the films and our own spiritual beliefs. Leonard also lists teachable moments found in each movie and provides questions for personal reflection or group dialogue. In addition, Leonard teaches today's religious educators, parents, and film buffs how to "read" a film with the eyes of faith, and how to meaningfully engage with others through the media of film. He offers realistic advice on such topics as: valuing our story, sex and violence in films, ratings, and how to be a critical consumer. This

entertaining and reliable guide will enrich your movie-watching experience. ""Movies That Matter "is a book every person in pastoral ministry will want to use as he or she seeks to be relevant and faithful in a media world." --Rose Pacatte, FSP, coauthor "Lights, Camera, . . . Faith " 100 Essential Indian Films Rohit K. Dasgupta 2018-12-15 This book offers a comprehensive view of the 100 most significant films ever produced in Bollywood. Each entry includes cast and crew information, language, date of release, a short description of the film's plot, and most significantly, the importance of the film in the Indian canon.

Mahatma Gandhi in Cinema Narendra Kaushik 2020-04-16 This book analyses 100 years of Hindi cinema, India's principal film industry, to explore how much space it has given to Mahatma Gandhi, the most prominent leader of the Indian struggle for freedom, and his principles. It compares films on Gandhi with the written literature on him, and juxtaposes the celluloid Gandhi with the man who walked on the earth 'ever in flesh and blood'. From his childhood through his legal practice in South Africa to his non-violent struggle against the British Empire in India, the book covers all major events of his life and their portrayal on the silver screen.

Swaraj and the Reluctant State K.B. Saxena 2020-11-03 This book traces the historical roots of marginalization of Dalits, Adivasis, Muslims and

Women in Indian Society and appraises the role of the State in combating the widespread discrimination faced by them in society, economy, politics and governance, and in their own struggles for dignity and social justice. Please note: This title is co-published with Aakar Books, New Delhi. Taylor & Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh, Maldives and Sri Lanka.

**The Encyclopedia of Epic Films** Constantine Santas 2014-03-21 Soon after film came into existence, the term epic was used to describe productions that were lengthy, spectacular, live with action, and often filmed in exotic locales with large casts and staggering budgets. The effort and extravagance needed to mount an epic film paid off handsomely at the box office, for the genre became an immediate favorite with audiences. Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years. Length was, and still is, one of the traits of the epic, though monolithic three- to four-hour spectacles like *Gone with the Wind* (1939) and *Lawrence of Arabia* (1962) have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy. Although the form has evolved during many decades of existence, its central elements have been retained, refined, and modernized to suit the tastes of every new generation. The Encyclopedia of Epic Films identifies, describes, and analyzes those films that meet the criteria of the epic—sweeping drama, panoramic landscapes, lengthy adventure sequences, and, in many cases, casts of

thousands. This volume looks at the wide variety of epics produced over the last century—from the silent spectacles of D. W. Griffith and biblical melodramas of Cecil B. DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg. Each entry contains: Major personnel behind the camera, including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and Blu-ray availability Resources for further study This volume also includes appendixes of foreign epics, superhero spectaculars, and epics produced for television, along with a list of all the directors in the book. Despite a lack of overall critical recognition and respect as a genre, the epic remains a favorite of audiences, and this book pays homage to a form of mass entertainment that continues to fill movie theaters. The Encyclopedia of Epic Films will be of interest to academics and scholars, as well as any fan of films made on a grand scale.

**Bollywood's India** Rachel Dwyer 2014-06-15 Bollywood movies have long been known for their colorful song-and-dance numbers and knack for combining drama, comedy, action-adventure, and music. But these exciting and often amusing films rarely reflect the reality of life on the Indian subcontinent. Exploring the nature of mainstream Hindi cinema, the strikingly illustrated *Bollywood's India* examines its nonrealistic depictions of everyday life in India and what it reveals about Indian society. Showing how escapism and entertainment function in Bollywood cinema, Rachel Dwyer argues that Hindi cinema's interpretations of India over the last two decades are a reliable guide to understanding the nation's changing hopes and dreams. She looks at the ways Bollywood has imagined and portrayed the unity and diversity of the country—what it believes and feels, as well as life at home and in public. Using Dwyer's two decades spent working with filmmakers and discussing movies with critics and moviegoers, *Bollywood's India* is an illuminating look at Hindi cinema.

**Jungian Film Studies** Helena Bassil-Morozow 2016-12-03 Jungian film studies is a fast-growing academic field, but Jungian and post-Jungian

concepts are still new to many academics and film critics. Helena Bassil-Morozow and Luke Hockley present *Jungian Film Studies: The Essential Guide*, the first book to bring together all the different strands, issues and arguments in the discipline, and guide the reader through the various ways in which Jungian psychology can be applied to moving images. Bassil-Morozow and Hockley cover a range of Jungian concepts including the collective unconscious, archetypes, the individuation process, alchemy, and signs and symbols, showing how they can be used to discuss the core cinematic issues such as narrative structure, gender, identity, genre, authorship, and phenomenology. The authors argue that, as a place where the unconscious and conscious meet, cinema offers the potential for imagery that is psychologically potent, meaningful, and that plays a role in our personal psychological development. This much-needed book, which bridges the space between Jungian concepts and traditional film theory, will be essential reading for scholars and students of Analytical Psychology, psychoanalysis, Jungian film studies, media, film and cultural studies, psychosocial psychology and clinical psychology. It will also appeal to analytical psychologists, psychotherapists and readers with an interest in film analysis.

**The story of Bapu** Gandhi Smarak Sangrahalaya Samiti 1960 *Richard Attenborough* Sally Dux 2016-05-16 Richard Attenborough's film career has stretched across seven decades; surprisingly, Sally Dux's book is the first detailed scholarly analysis of his work as a filmmaker. Concentrating on his work behind the camera, she explores his initial role as a producer, including his partnerships with Bryan Forbes in Beaver Films (1959-64) and with Allied Film Makers (1960-64). As we know,

Attenborough went on to direct twelve films, many of which achieved great acclaim, most notably Gandhi, which won eight Academy Awards in 1982. Attenborough is most renowned for his biographical films including Young Winston, Cry Freedom, Chaplin and Shadowlands, which helped to establish the genre within British cinema. Although his work has often attracted controversy, particularly regarding the representation of individuals and historical events, his films are noted for extracting acclaimed performances from unknown actors such as Ben Kingsley (Gandhi), while maintaining his moral and thematic concerns.
